

**Fall Elections 2012:**  
**Bilingual Pollworker Allocation & Polling Places**

Maricopa County Elections Department  
Community Network Meeting June 2012

# A Seat at the Table

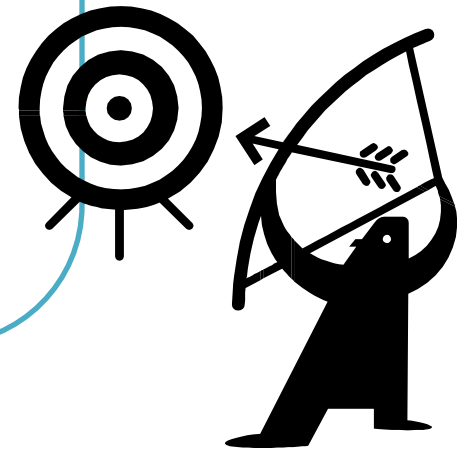

MCED thanks you for helping us to serve the voters of our county!

# Bilingual Boardworker Precinct Allocation Formula

*The formula has not changed from what we precleared on August 9, 2010 (**DOJ 2010-1722**):*

- ☐ Surname Analysis
- ☐ EV vs. PP Voting Behavior
- ☐ Spanish Ballot Requests
- ☐ Survey Responses

# The Formula:

## Surname

100-249    1 Boardworker

250-499    2 Boardworkers

500+       3 Boardworkers

## Voting Behavior/Turnout at the Polling Place

<125 Spanish Surnames at polls    1 Boardworker

125-250 Spanish Surnames at polls    2 Boardworkers

251+ Spanish Surnames at polls    3 Boardworkers

## Spanish Ballot Requests

0 Requests    Remove precinct from list

<20 Requests    Lower staffing 1 Boardworker

## Survey Responses

Add Boardworker if voter comes in in Primary to non-allocated PP

# The Results:

## **1 Boardworker**

437 Precincts

437 BWs

## **2 Boardworkers**

129 Precincts

258 BWs

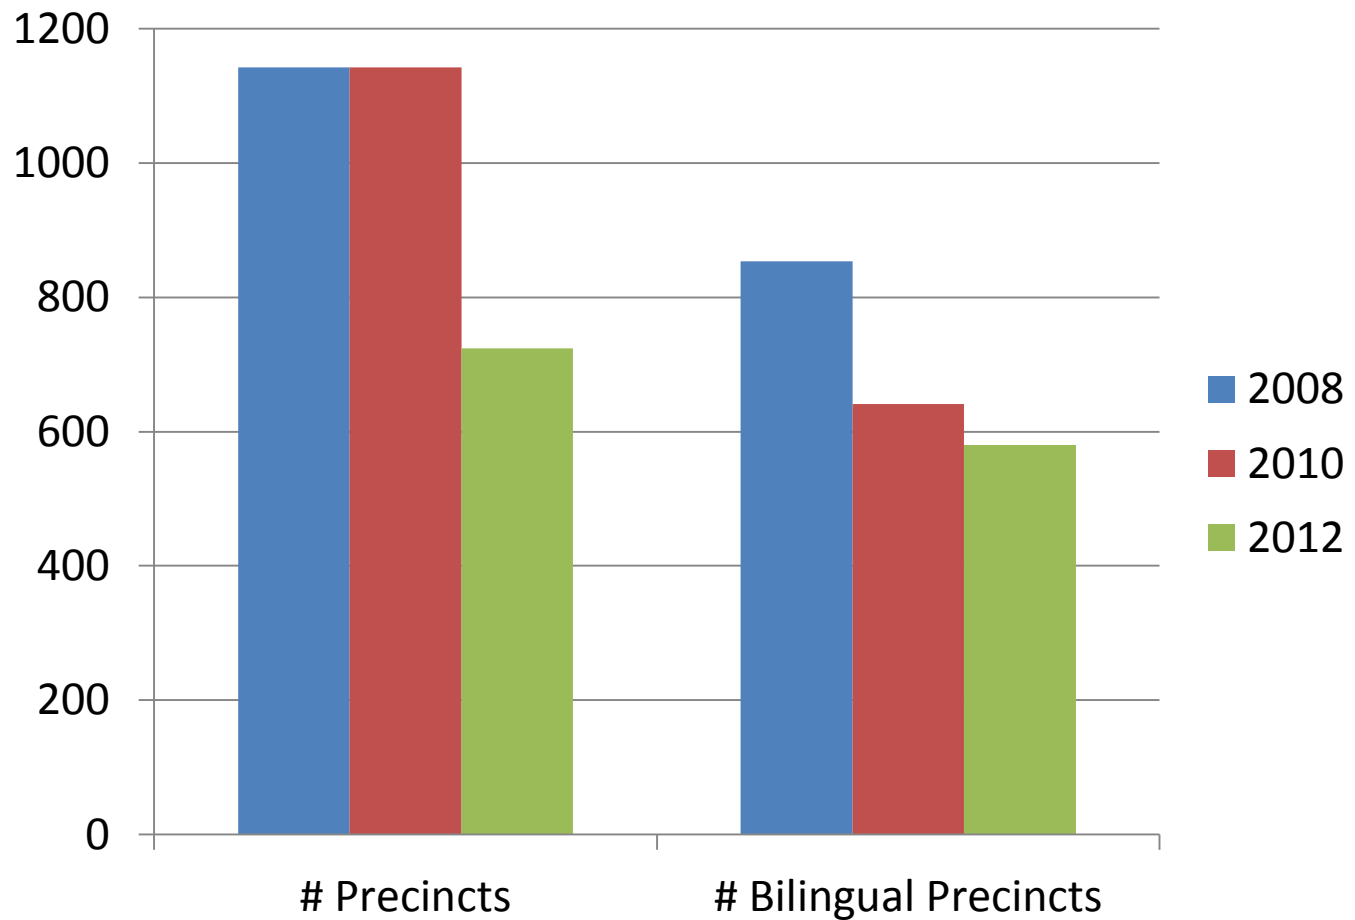

## **3 Boardworkers**

14 Precincts

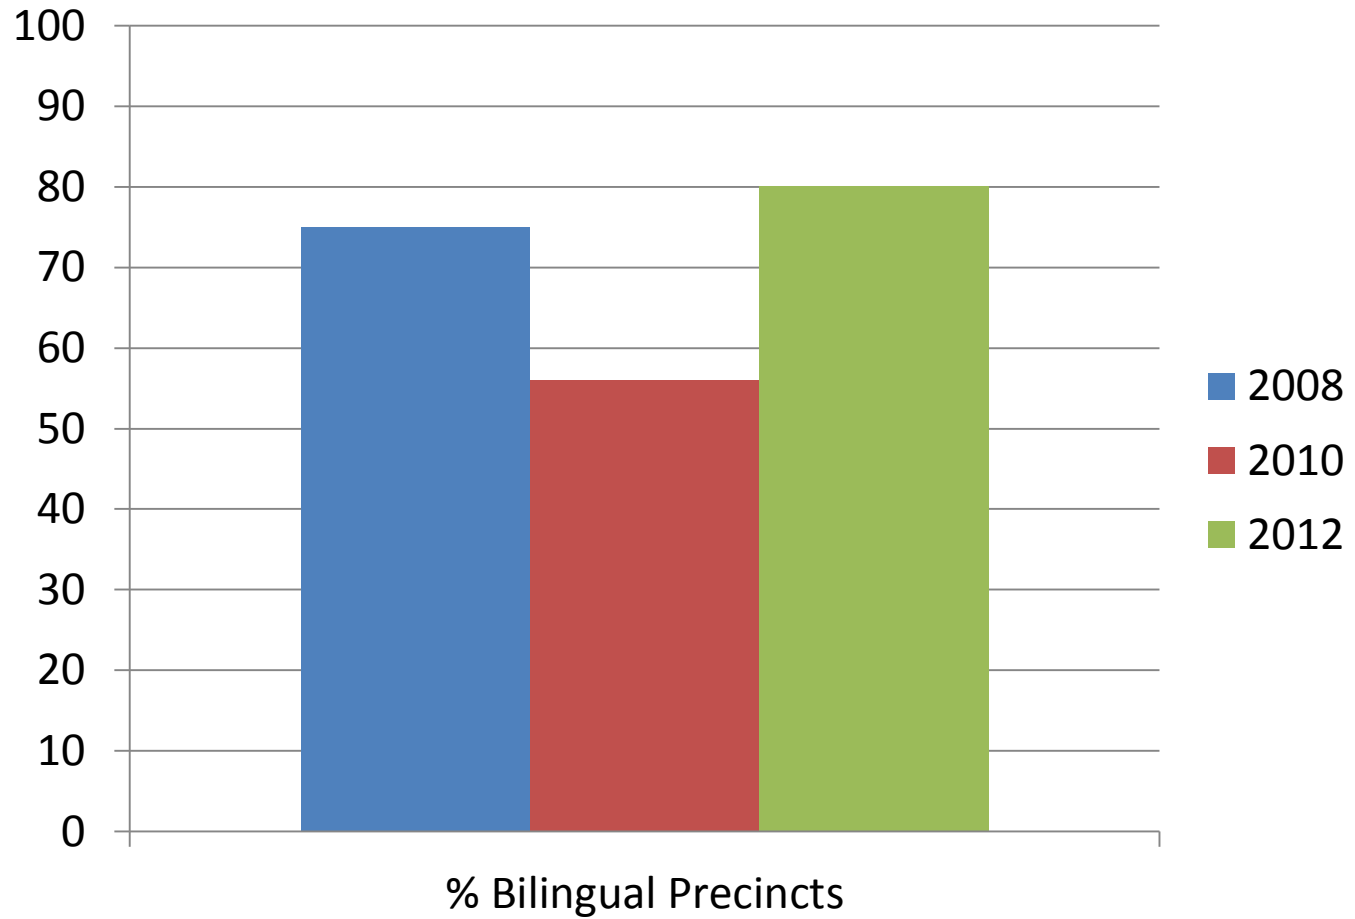

42 BWs

**TOTAL: 580 Precincts & 737 Boardworkers**

## Survey Results Filter

- The survey is normally used as our practical application of field knowledge (& the reason for the drop from 2008 to 2010).
- With this election we have all new voting precinct numbers and names so are unable to compare that to last elections.
- For the Primary & General we will not remove any precincts based on survey results but rather, use it as the foundation for moving forward with the new precinct lines.
- Will still add precinct if voter comes in.

# Survey Results Filter

- The survey information will be back in place and utilized for next cycles:

## Survey Responses

o Voters, <300 Surnames

Remove Boardworker

o Voters, >300 Surnames

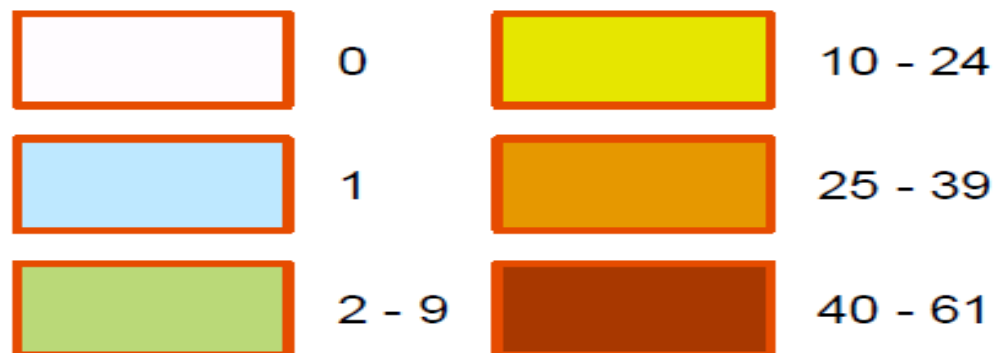

Lower to 1 Boardworker

o Voters, >800 Surnames

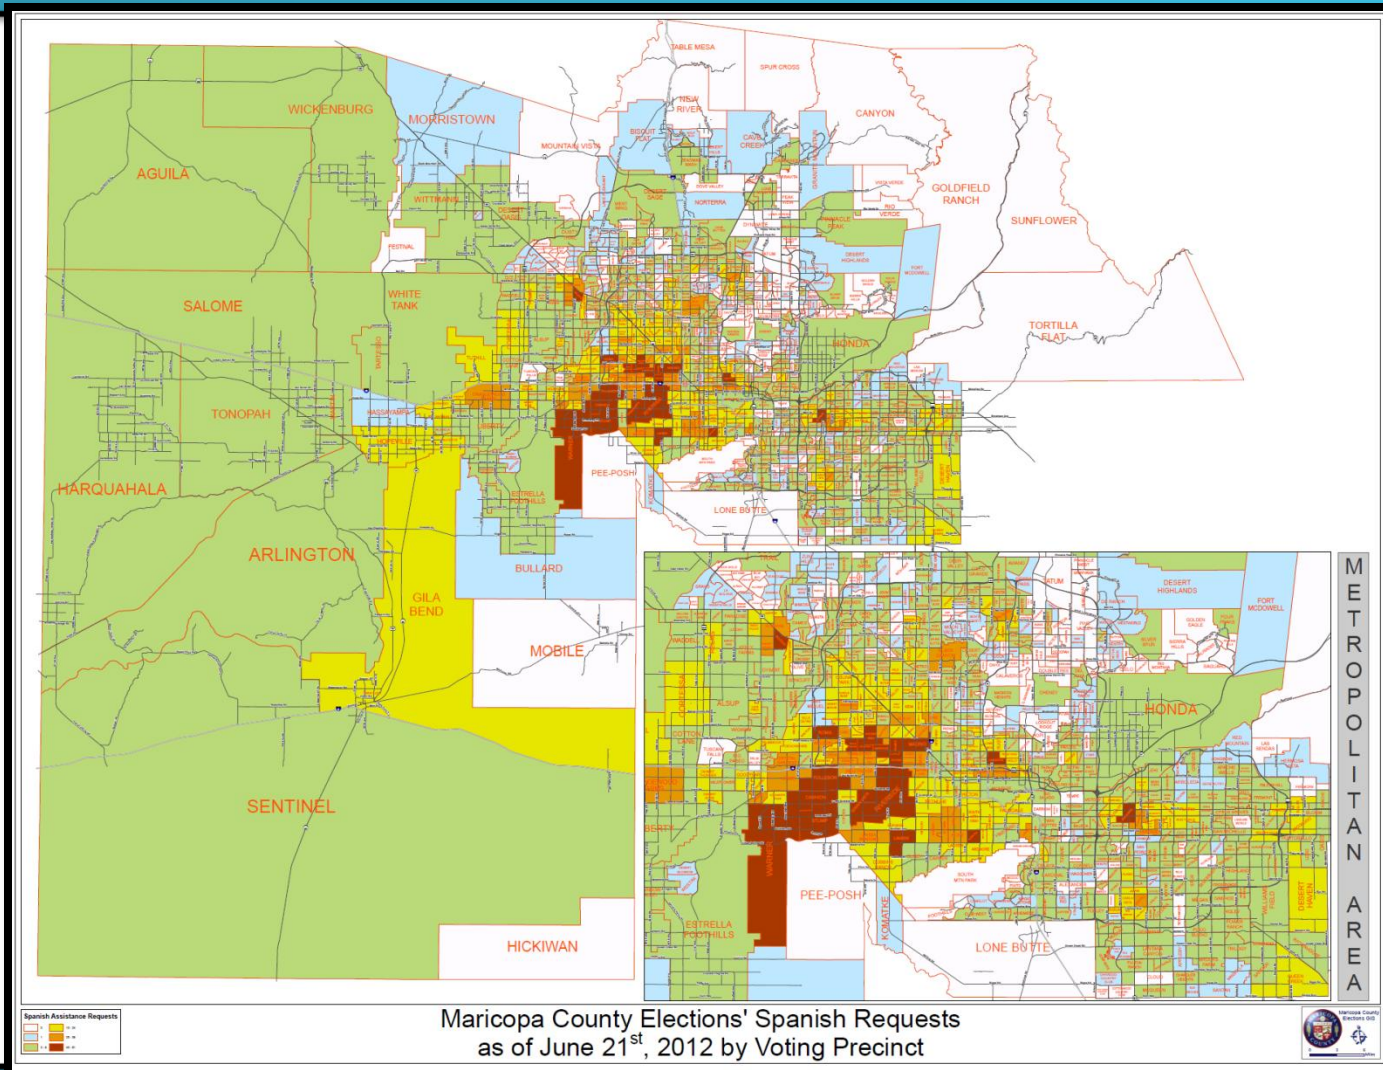

Lower by 1 Boardworker

# Spanish Ballot Requests

## Spanish Requests

# Map of Countywide Spanish Ballot Requests

The map displays a vast area of Phoenix, Arizona, with numerous neighborhoods labeled. The colors used for the neighborhoods include shades of yellow, orange, brown, green, and blue. Major highways are indicated by thick black lines. The map is titled 'PHOENIX' in large, bold, black letters at the top center. The map is surrounded by a black border.

## Extra Caution

- Because this is the first election cycle with the new precincts we are using some additional caution in lowering staffing levels when the population is high, even though there is historically lower turnout and large numbers of voters on PEVL.
- Instead of moving these precincts from 3 to 1, we only lowered them from 3 to 2 to ensure coverage in the General Election.

# Polling Place Assignments

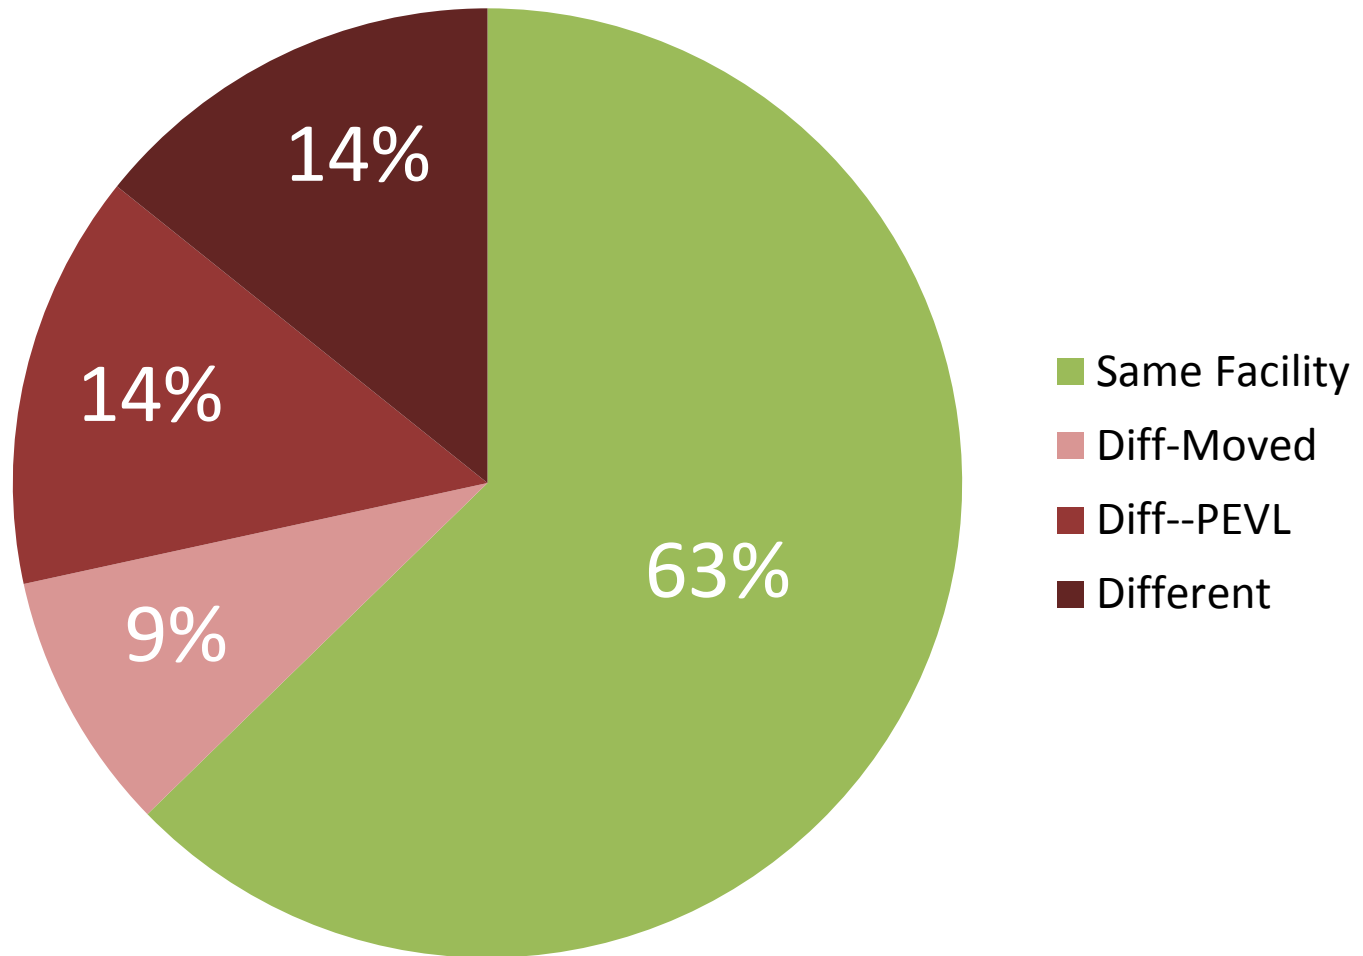

- When voting precincts change it is difficult to track polling place changes.
- Particularly after the decennial census when all of our voting precincts get renumbered.

## Voter Impact

- What we really want to figure out is if voters are going to the same polling place.
- So, we compared the facility number assigned to the voter for the upcoming Primary Election to the facility number for where they voted in the General 2010.
- For those voters where the number is DIFFERENT, did they have a change to their voter registration in that time period (IE they moved)?
- The remaining voters are impacted.
- But how many are on the PEVL?

# We wanna know:

- ☐ Do you think we are sufficiently staffed?
- ☐ Do you think the polling locations are appropriate?

# We wanna know:

☐ If you don't like a polling location, do you have a suggested location where we can go?

☐ If you think we have understaffed/overstaffed a specific location, how many do you think is necessary to address the need in that area?
